

Micanda, the cash register that adapts to your business

The solution for fast transactions
and simplified management.

Our solutions

Micanda
connected POS system

The benefits of Micanda

The Micanda cash register can be configured to meet the specific needs of each establishment.

Modern and intuitive

Benefit from a user-friendly, easy-to-use interface for efficient management.

Fast transactions

Reduce queues with optimized transaction speed.

Service continuity

Benefit from uninterrupted operation even in the event of a loss of connection.

Multi-site management

Manage multiple sites from a single platform for simplified, centralized management.

Enhanced security

Protect your data and transactions with advanced security measures.

Customized settings

Tailor settings to your specific needs for optimum use.

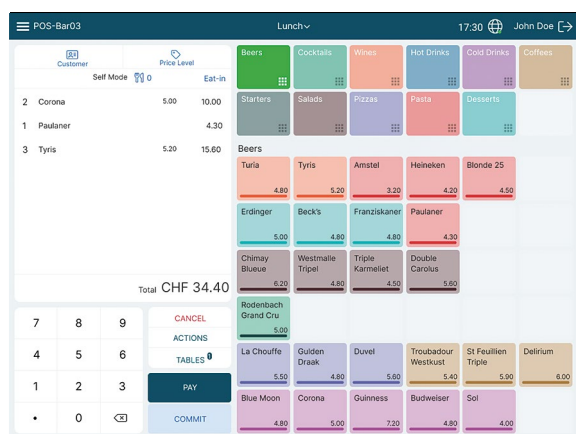

The flexibility and compatibility of our solution mean you can easily install it on Windows 10/11, whether on-premise, in the Cloud, or in SaaS mode. This adaptability ensures that our system integrates seamlessly with your existing infrastructure. What's more, with a wide range of hardware options available, you can customize your checkout experience to precisely match your establishment's needs, ensuring optimal performance.

Micanda POS features

Micanda POS simplifies and accelerates sales management with an intuitive interface, customizable tools, and a seamless checkout process. Ideal for cafés, bars, and retail outlets, it optimizes efficiency and the customer experience.

Easy to use

Touch interface

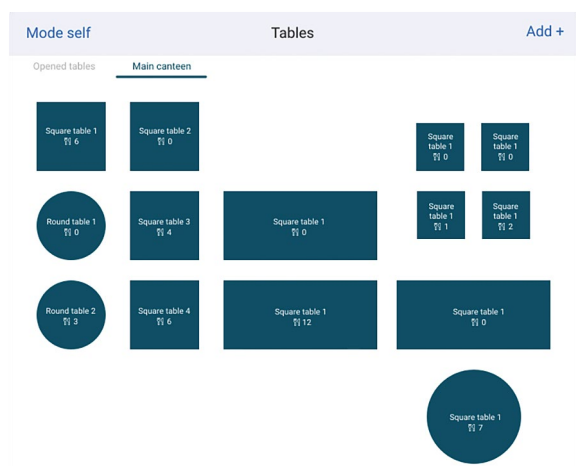

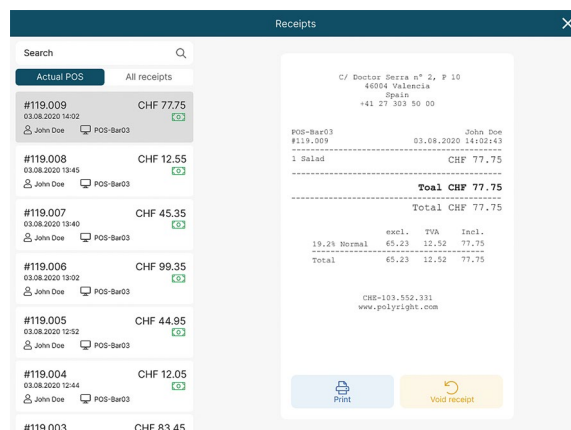

Get started right away with fast, intuitive navigation.

- Simple gestures, quick search
- Real-time dynamic ticketing
- Optimized for intensive use

Tickets & history

Everything is at your fingertips, so you can view or print your sales easily.

- History by user or till
- Quick access to ticket details
- Easy archiving and searching

Real-time table tracking

Visualize, organize and manage tables at a glance.

- Customized seating plan view
- TSquare or round tables, depending on actual layout
- Number of customers visible in real time
- Ideal for restaurants, canteens, events

Why choose Micanda POS?

All-in-one license

Micanda POS offers a single, ultra-competitive price including all features, with no hidden costs or extras. Both annual and monthly payments are accepted, for maximum budget flexibility.

Seamless integration

Micanda POS is compatible with all major payment terminals (including Wallee), accepts QR codes and integrates easily with restaurants, cafeterias, shops and university systems.

Full Swiss-based support

We understand the importance of reliable service. That's why Micanda POS includes high-performance support based in Switzerland (Sion and Regensdorf), ensuring that your business stays up and running without interruption.

Flexible and scalable

Whether you manage a single site or several, Micanda POS adapts to your needs, offering real-time transaction information and automated reports.

Secure

With robust data encryption and compliance with the latest security standards, Micanda POS ensures that your transactions and customer information remain secure at all times.

Training

Customized configuration and staff training to ensure optimal use from day one.

Hardware & payment ecosystem

Micanda POS comes with robust POS terminals and integrated payment solutions to ensure fast, reliable and frictionless management. By combining professional hardware and synchronized payments, you can boost operational efficiency while optimizing the customer experience.

An optimal ecosystem

Our selection of POS terminals, from the Posbank and 4POS brands, is suitable for all environments: compact, modular or all-in-one:

- ✓ Preconfigured hardware for Micanda
- ✓ Intensive, long-term use
- ✓ Simple installation, plug & play

Integrated payment with Wallee

Micanda POS integrates natively with Wallee terminals, for fast, mobile and secure payments. As an official reseller, we support you in their deployment:

- ✓ Card, mobile (e.g. Apple Pay, TWINT, etc.), contactless payments
- ✓ Instant and synchronized transactions
- ✓ Ultra-competitive transaction fees, with no hidden charges
