

One ID. Many possibilities.

The solution for managing ID cards, access control
and payments in your healthcare facility.

Our solutions

Make life easier for your team

Secanda is an innovative solution for identity management, cashless payment and access control, specifically designed for healthcare facilities.

With advanced functionalities, it provides an integrated solution for user identification, payment systems and access control, as well as seamless interoperability and integration with existing tools. This solution offers a fast, simple and secure experience for healthcare staff and facilities.

Advantages of the Secanda solution

Developed to meet the specific needs of healthcare staff and facilities, the Secanda solution centralises and simplifies access to a range of digital services.

FOR YOUR TEAM

Easy to use

The solution delivers contactless functionalities with an intuitive interface.

Improved security

Security is improved, reducing the risk of theft or loss.

Cashless payments

Team members no longer need to carry cash.

Core application

Use the application for quick top-ups or to manage lost or stolen cards.

Track spending

Give your team members the option of tracking their spending and usage at any time.

Optimised time management

Team members can easily scan their cards at an RFID reader and their presence is instantly recorded.

FOR YOUR BUSINESS

Simplified card creation

Easily create and manage cards with integrated access control.

Centralised data

Data is centralised, enabling the rapid generation of detailed reports for quick and easy analysis. Create and manage IDs, categorise your users and assign rights and privileges.

Track spending

Monitor the transactions of individual team members.

Interoperability and integration

Easy interoperability with existing tools, such as ERP (SAP/Oracle/Sage), directory services, attendance monitoring, business intelligence, Salto, Bibliotheca, Papercut, Canon Uniflow and many more.

Extendable

You have the option of extending the solution's integration to patients and families.

Reduce costs

Reduce and optimise your facility's operating costs.

A comprehensive solution for a range of services

Able to centralise a number of services, the Secanda solution can be customised according to the specific needs of each healthcare facility.

Parking

Car park access

Printing services

Pay to use printers and photocopiers

Lockers

Electronic locker access

Cafeteria

Pay for meals at the cafeteria

Vending machines

Pay at vending machines for snacks or hot drinks

Vouchers

Create and personalise vouchers and coupons

Secanda guarantees full GDPR compliance through strict data protection protocols. We ensure transparency in the collection and handling of data, allow users to exercise their rights and offer advanced security measures. With Secanda, you comply with the highest standards of privacy protection for processing data legally and ethically.

We customise your configuration to suit your needs

Personalising your solution

Polyright works in close collaboration with individual healthcare facilities to define a personalised solution adapted to their specific needs and the range of services they offer.

Customised installation

Our team of experts meticulously customises the Secanda solution to every facility, integrating the selected services and adapting functionalities to optimise the user experience.

Training

Polyright offers comprehensive training for administrators and staff at healthcare institutions to ensure optimised use, making the transition as smooth as possible.

Technical support

Our technical support team is available to quickly resolve potential issues, carry out maintenance and guarantee optimum performance.

Switch your business to the Secanda solution

Contact us today for a detailed presentation of the Secanda solution and discover how it can be customised to meet the specific needs of your healthcare facility.
